## Behind the Scenes on the Construction of the Thompson Exhibition Building

Mystic Seaport partnered with local engineering and construction leader A/Z Corporation of North Stonington, CT for the construction of the new exhibition building and the development of the adjacent McGraw Gallery Quadrangle.

The opportunity to help Mystic Seaport realize the vision for its north end has been one of deep personal interest for A/Z – many of our 450 employees are residents of Southeastern Connecticut and the Groton / Mystic area. As such, A/Z rallied to support this community project by waiving our typical construction fee for the work.

A/Z's primary role was as the Construction Manager, working alongside and on behalf of Mystic Seaport in a transparent relationship to oversee the planning and execution of this project.

We are proud to have served Mystic Seaport and the community during this landmark initiative. The unique nature of this project marks just one area of competency across a range of technically and logistically challenging sectors served by A/Z. More information about our services and markets are outlined on the reverse of this page.

## More About Our Company

A/Z Corporation is a recognized leader in design, construction and maintenance services. A/Z has its corporate headquarters in North Stonington, CT and offices in Hartford, CT, Hopkinton, RI, Westborough, MA and Philadelphia, PA.

A/Z is a privately held, family-owned company with approximately 450 employees who have supported over \$950 million of work over the past five years.

A/Z serves a diverse range of markets that include Corporate & Institutional, Education & Non Profit, Healthcare, Hospitality & Gaming, Life Sciences & Research, Manufacturing, Mission Critical, and Distributed Generation & Utilities.

A/Z's clients include some of the Eastern United States' most recognizable companies, many of which rank in the Fortune 500 and 1000. They include Amgen, Brown University, The Dow Chemical Company, Eversource, General Dynamics Electric Boat, Hartford Healthcare, Lawrence + Memorial Hospital, Yale New-Haven Health System, Foxwoods, Mohegan Sun, Pfizer, Pratt & Whitney/United Technologies, Sanofi/Genzyme, and Yale University. Due to A/Z's reputation of delivering projects successfully the company has experienced repeat business with many clients, including a 45+ year relationship with Pfizer, General Dynamics Electric Boat and The Dow Chemical Company to name a few.

Other ongoing A/Z projects include the 14-story Mohegan Sun Earth Tower in Uncasville, CT, a major renovation of Yale Law School's 137,000 square foot Robert C. and Christina Baker Hall, and the design and construction of a new 100,000 square foot manufacturing facility for Aspen Aerogels in Statesboro, GA.

Please refer to our website at [www.a-zcorp.com](http://www.a-zcorp.com) to see more of our quality work. Our position as a preferred partner to our clients is made possible by our flexibility and internal services. Our diverse capabilities include:

### Design & Engineering Services

- Architecture
- Mechanical
